Fire Safety Module
ESOL Students
This learning resource was developed through a partnership between the NSW Adult Migrant English Service (NSW AMES) and NSW Fire Brigades.

It is designed to integrate fire safety training into English as a second language programs.

It should be used in conjunction with the booklet *Fire safety and prevention in the home* published by NSW Fire Brigades or with the website of NSW Fire Brigades [www.nswfb.gov.au](http://www.nswfb.gov.au).

The activities in the resource are aligned to learning outcomes in the *Certificate II in Spoken and Written English* (NSW AMES 2007).

Copies of the resource can be made free of charge but **NO** changes must be made to the content.

Fire Safety in the Home

1. Read this information.

Home fire safety plan
This information is from a report by NSW Fire Brigades written in 2005.

Where do most house-fires happen?
+ kitchen (45.8%)  + sleeping areas (11.6%)  + living area (9%)

What causes most house-fires?
+ 19% are caused by cooking appliances and equipment
+ 3% are caused by heating appliances

Are you fire safe in the home?
Do you know what to do in a house fire?
If you need to escape from a house fire, will you be able to do so safely?

Keeping your home safe from fire
- Install smoke alarms in suitable places and test them monthly.
- Prepare a home-escape plan in case of fire and practise it regularly.
- Make sure you have keys to all locked doors in case you need to escape.
- Never leave cooking or any other open flame unattended.
- Clean the lint filter in your clothes dryer each and every time you use it.
- Never smoke in bed and be careful when you drink alcohol and smoke.
- In winter take extra care when using heaters, electric blankets or open fires.
- Do not overload power-points and switch off appliances when not in use.
- Always keep lighters and matches away from children.
- Store chemicals and fuels in a safe place.
- Check your barbeque is safe before you light it.

Now use the information to do these exercises.
2 Match the instructions in the box with the correct picture. Write the numbers in the boxes. One has been done for you.

a Make sure you have keys to all locked doors in case you need to escape.
b Never _________ cooking or any other open flame unattended.
c Never _________ in bed and be careful when you drink alcohol and smoke.
d Always _________ lighters and matches away from children.
e _________ chemicals and fuels in a safe place.
f _________ your barbeque is safe before you light it.
Markers of time, manner and place

To add more information to instructions, we add markers or circumstances such as:

**Time**  eg: soon, then  **Place**  eg: on the table, in Sydney

**Manner**  eg: quickly

### Imperatives

We use the imperative form to tell someone what to do or to give instructions. This means that the verb goes first.

Example:  *Install suitable smoke alarms and test them monthly.*

We use *don't* to form negative imperatives.

Example:  *Don't overload power points*

---

4  Read these instructions. Cross out Do or Don't. One has been done for you

- a  Do *Don't* test your smoke alarms monthly.
- b  Do Don’t have regular fire drill/practice.
- c  Do Don’t keep all your doors locked at all times.
- d  Do Don’t stay away from the stove while you are cooking.
- e  Do Don’t clean your dryer filter every time you use it.
- f  Do Don’t be careful when you use electric blankets or heaters.
- g  Do Don’t let your children play with matches.
- h  Do Don’t safely store chemicals and fuels.
- i  Do Don’t regularly clean your gutters if you live near bushland.

---

5  Underline the markers in the following instructions. Tick if they are time or place. One has been done for you.

How to Save Yourself from a House Fire

1 Tick the fire dangers you have in your home.
   - candles
   - overloaded power-points
   - heaters
   - chemicals
   - clothes dryer
   - barbeque
   - electric blankets
   - fuels
   - matches

2 Tick the fire safety things you have in your home.
   - smoke alarm
   - fire safety plan
   - keys to all doors
   - windows that can open

3 Read the following instructions and underline the verbs in the imperative form.

   1 Help those in immediate danger
   2 Close the door to stop the fire spreading
   3 Get down under the smoke and go outside
   4 Go to your meeting place, Do NOT go back
   5 Call 000 from a safe location

4 Read this information about fire escape plans.

   - Know two ways out of every room.
   - Make sure your windows can open.
   - Decide on an outside meeting place.
   - Draw your escape plan.
   - Talk about the escape plan with everyone in the house.
   - Practise your escape plan regularly.
5 Read the information.

NSW FIRE BRIGADES
FIRE SAFETY AND PREVENTION IN THE HOME

BE PREPARED: Have a Home Escape Plan
In the event of a fire a working Smoke Alarm used in conjunction with an Escape Plan will greatly increase your chances of getting out safely.
Draw your Escape Plan on the grid - then place it where your family will see it - for example, on your fridge.

✓ Include two means of escape from each room.
✓ Discuss it with other occupants
✓ Make sure that windows and screens can be easily opened.
✓ Provide alternatives for anyone with a disability.
✓ The first priority is to get out of a burning house.
✓ If there is a fire close the door as you are leaving a room to prevent fire and smoke from spreading.
✓ When there is smoke, always crawl low to get under the smoke.
✓ Decide on a safe outside meeting place eg. near the letterbox and phone from a safe phone.
✓ Once you get out, never go back inside a burning building.
✓ Practise your plan at least twice a year making sure that everyone is involved.

Fire Safety in High-Rise Buildings

1 Read these instructions for fire safety in high-rise buildings.

**Fire fighting equipment**
On every level of the building there will be fire-fighting equipment such as fire hose reels and portable fire extinguishers.
- You MUST know where the fire hose reels and portable fire extinguishers are.
- Learn how to use the fire hose reels and portable fire extinguishers.
- Make sure your flat has working smoke alarms installed.

**Fire-escape plan**
- You MUST know where the emergency exits are. They are green and white.
- NEVER use the lifts when there is a fire.
- Decide on an outside meeting place.
- Draw an escape plan.
- Talk about the escape plan with everyone in the flat.
- Practise the escape plan regularly.

**Fire stairs**
Fire stairs will lead you to a safe place away from the building.
- NEVER leave a fire stair door open.
- NEVER leave anything in the fire stairs at anytime!
- Report any problems with fire stairs and fire doors to the management immediately.

**Fire safety tips**
If you cannot escape by the fire stairs:
- Close all windows and doors to stop the smoke entering your flat.
- Phone 000 and tell the operator there is a fire in your block of flats.
- Tell the operator your flat number and that you are unable to get out of the building.
- If you are unable to use the phone go to the balcony and shout to passers-by.
2 Answer these questions about fire safety in high-rise buildings.

Smoke Alarms

1. Read this information about smoke alarms.

Smoke Alarms

A smoke alarm is a life-saving device. It detects smoke and sends out a loud sharp sound to alert you.

According to the law, all homes MUST be fitted with smoke alarms. Smoke alarms reduce deaths from houses fires by 50%.

When you go to sleep, you cannot smell smoke and smoke puts you into a deeper sleep. You may not know your house is on fire. If there is a fire, toxic fumes may overcome you before you wake up.

Therefore you should install a smoke alarm where it can detect smoke before it reaches the bedrooms. This will give everyone time to evacuate. The best place is in hallways leading to bedrooms.

Don’t put smoke alarms near cooking appliances or bathrooms. This will avoid false alarms.

You MUST test smoke alarms every month to ensure that the battery and the alarm are working.

You can buy smoke alarms at most hardware shops and department stores.

2. Write the number of the paragraph where you find the information to answer these questions. One has been done for you.

i) You can buy smoke alarms at most ____________________________ and ____________________________.
Installing Smoke Alarms

1. Read this information about installing smoke alarms.

### Smoke Alarms

There are two types of smoke alarms:

1. Battery powered smoke alarms can easily be installed by home owners or handymen.
2. Hard wired smoke alarms must be installed by a licensed electrician or professional installer.

NSW Fire Brigades recommends the installation of hard wired smoke alarms.

Always read the smoke alarm instructions before installing.

Smoke alarms work best when they are installed on the ceiling, away from walls and fittings.

The law requires one smoke alarm to be installed on each level of a house or flat.

NSW Fire Brigades recommend installing smoke alarms:
- in the hallways leading from the kitchen to the bedrooms
- in all bedrooms.

Read the information about installing smoke alarms again. Answer these questions.

a. Who can install a battery powered smoke alarms?

________________________________________________________________________

b. Who must install a hardwired smoke alarms?

________________________________________________________________________

c. What must you read before installing a smoke alarm?

________________________________________________________________________

d. Where is the best place to install a smoke alarm?

________________________________________________________________________

e. How many smoke alarms does the law say must be installed?

________________________________________________________________________

f. Where does NSW Fire Brigades say to install smoke alarms?

________________________________________________________________________
3 Read the information about installing smoke alarms again. Find phrases of place, time and manner to complete these sentences.

a Battery powered smoke alarms can easily be installed ________________ or handymen.

b Hardwired smoke alarms must be installed ________________ or professional installer.

c Always read the smoke alarm instructions ________________.

d Smoke alarms work best when they are installed ________________, away from walls and fittings.

e The law requires one smoke alarm to be installed ________________ of a house or flat.

f NSW Fire Brigades recommend installing smoke alarms ________________ leading from the kitchen to the bedrooms and in all bedrooms.

4 Look at this house plan. Complete these sentences.

a There are _________ smoke alarms in this house.

b There are _________ bedrooms in this house.

c There is a smoke alarm ___________ the living room and the study.

d There are smoke alarms in all the ________________.

e There is a smoke alarm in the hallway ________________ the laundry, toilet and bathroom.
Checking Smoke Alarms

1  Read these instructions.

Checking smoke alarms
- Test your smoke alarm every month to make sure the battery and alarm are working.
- Clean your smoke alarm every six months with your vacuum cleaner.
- If your smoke alarm has an alkaline battery, change the battery once a year. Change your battery when you change your clock for daylight saving.
- If your smoke alarm has a lithium battery, you do not need to change the battery every year.
- Install a new smoke alarm every ten years.
- If your smoke alarm gives out a short beep every 60 seconds, the battery power is low and you must change the battery.

2  Match the instructions with the time.

Read this recount.

The McGowan family had an eventful day yesterday. Mary McGowan and her four young daughters went to the supermarket. They had invited friends over for a barbeque on the weekend so Mary bought boxes of matches to light the barbeque.

After shopping Mary put the shopping bags on the kitchen floor. Mary was unpacking the bags when the phone rang. While Mary chatted to her sister, her three-year-old daughter Rachael looked for lollies in the shopping bags.

Suddenly Mary heard Rachael screaming. She threw down the phone and raced to the kitchen. The tablecloth was on fire. The flame was spreading very quickly and it started to burn the edge of the curtain.

Amy, the eldest daughter, ran next door and told the neighbours that her house was on fire.

Ray Thomas, the next-door neighbour, dashed to Amy’s house. He grabbed a garden hose in the front yard and turned on the tap. He rushed through the door and immediately sprayed the water on the fire. He told the girls to get out of the house.

Ray’s teenage daughter, Kim, called triple zero for help. The firemen arrived in five minutes but Ray and Mary had managed to put the fire out.

It was a happy ending even though Rachel was frightened and had slightly burnt her finger. The McGowans had to toss out their tablecloth and get a new curtain. Two weeks later they invited Ray and his family in for a barbeque to thank them.

The McGowans learnt a few lessons from this experience. Mary learnt not to leave matches near her children and the daughters learnt not to play with matches. The family also made a fire-escape plan, installed smoke alarms around the house and bought a fire extinguisher.
2 Read the recount again. Write the correct names to complete the sentences.

Children and Fires

1. Discuss this information in a group.

Did you know that every year at least 3,000 fires (around 10 per cent of all fires) in NSW were possibly started by children?

Unfortunately, some of the children who died or were injured in home fires actually lit the fire themselves.

What do you think is the most common way children start fires?

2. Read what the NSW Fire Brigade advises families. Tick if Mary followed their advice.

Making your Children Safe from Fire

1. Here is a checklist of things you need to teach your children about fire safety.

- Get out of the house if you hear the smoke alarm.
- If you smell smoke, get down on your hands and knees and crawl to the door.

**GET DOWN LOW AND GO GO GO!**

- Remember to use the home fire escape plan.
- If there is a fire, leave the house and go to the letterbox. Wait there for mummy and daddy.
- Do not go back into the house.
- Ask someone to call 000.
- Do not play with matches.
What is an Emergency?
